

Worship Guidelines at Trinity

1. Worship will be at the Church building on Sundays at 10.30am, lasting for approximately 40 minutes; booking a place is no longer required, however we still require to fulfil track and trace guidelines – the quickest way to do this is by using the check-in QR code which can be scanned using your mobile phone on entry to the Church, but there will also be a sheet in the vestibule for you to leave your name and contact telephone number if you prefer.
2. No one with any Covid-19 symptoms or other contagious health conditions should attend. Please be aware of the latest Scottish Government guidelines and consider carefully whether or not you should attend.
3. All attending Church must wear a face covering at all times; there will be no pew leaflets or other items to collect; access to the balcony is possible; singing is allowed as long as face coverings are worn.
4. Even though the law does not stipulate physical distancing now, the advice is that - especially indoors - keeping a safe distance from people in other households and avoiding crowded places will minimise risk.
5. Church Officer will arrive 45 minutes before the service and open the main glass doors at both sides, open the main and inside vestibule doors at both sides, and open the three main sanctuary doors, and double check that all safety and hygiene measures are in place. It is important to maintain good ventilation and hygiene.
6. We aim to resume live streaming of our Sunday service from 5th September onwards. Online worship will continue meantime.
7. At the close of worship please take your time to leave the sanctuary to avoid crowding.
8. We are planning to have tea and coffee after the service. Please observe social distancing when moving to and when in the café. You will be served at your table.
9. Although restrictions have now eased, we would politely remind everyone to be respectful of the fact that people may wish to remain cautious and maintain space around them. We are aware that the virus remains a threat and care still needs to be taken.
